Tallinn Academic Building

Move forward in life

The Estonian Entrepreneurship University of Applied Sciences(EUAS) is the largest private university in Estonia, recognized for its innovative and collaborative approach to education.

At EUAS, you can acquire the skills and knowledge for tomorrow's job market in fields such as business, information technology, people management, and the arts. The programs are designed to accommodate the schedules of working professionals and are conducted in small groups to ensure personalized learning experiences. The university hosts over 200 guest lecturers.

Did you know that Estonia is the greenest country in Europe and also leads with the most tech unicorns per capita? Study in a country that ranks third in Europe for startups and is home to successful companies like Bolt and Wise.

Ülemiste City – A Leading Smart City of Innovation

EUAS is part of the Ülemiste City –the largest business campus in the Baltics that provides outstanding internship opportunities, job shadowing, programs, and a wide range of engaging talent services. Our university is conveniently located at the smart city, offering numerous opportunities for personal development and networking. You can take part in inspiring seminars, along with various sports and leisure activities.
