● September	Official start of the academic year and enrolment completion.

Applications are reviewed on a rolling basis. Places are confirmed in the order in which enrolment steps are completed.

BACHELOR IN GRAPHIC DESIGN

OVERVIEW

The Bachelor in Graphic Design at MJM Paris prepares students for contemporary careers in visual communication, graphic design and digital media.

The programme combines creative thinking, technical expertise and professional design practice, aligned with current industry expectations and the evolving demands of the creative sector.

PROGRAMME STRUCTURE

Duration: 3 years full-time

Credits: 180 ECTS

Diploma: French qualification (RNCP title)

ACADEMIC LEVELS:

Level 4: Visual fundamentals and creative foundations

Level 5: Digital design, branding and professional development

Level 6: Advanced projects and professional practice

Practice-led learning delivered through studios, workshops and specialist digital facilities.

ENTRY REQUIREMENTS

A-Level / French Baccalauréat (or equivalent qualification) in Applied Arts, Graphic Design or a related discipline.

Direct entry at an advanced level may be considered for applicants with relevant academic or professional experience, subject to interview and admissions review.

TEACHING & LEARNING APPROACH

The programme follows a **practice-led teaching model**, delivered by industry-experienced professionals.

Teaching is informed by **current professional practice and industry standards**, with assessment based on projects, creative outputs and a final professional portfolio.

CAREER OPPORTUNITIES

GRADUATES PURSUE CAREERS AS:

- Graphic Designer
- Visual Communication Designer
- Digital Designer
- Brand Designer
- Junior Art Director

WHAT YOU WILL LEARN

STUDENTS DEVELOP EXPERTISE IN:

- Visual communication and graphic culture
- Typography, layout and editorial design
- Branding and visual identity
- Digital design, UX/UI fundamentals and motion graphics
- Image-making, photography and audiovisual expression
- Professional presentation and portfolio development

KEY AREAS OF STUDY

VISUAL COMMUNICATION

- Illustration and visual storytelling
- Digital drawing techniques
- Typography and graphic language
- Visual identity and branding
- Graphic culture and design theory

DIGITAL & GRAPHIC DESIGN PRACTICES

- Layout and editorial design
- Print and web design fundamentals
- Packaging and communication materials
- Visual communication for digital media
- Content creation and animated graphics

PROFESSIONAL PRACTICE & ART DIRECTION

- Creative process and design strategy
- Project and communication design
- Design production workflows
- Creative project management
- Introduction to animation design

WORKSHOPS & APPLIED PROJECTS

- Professional photo retouching and styling
- Web design and cross-disciplinary projects
- Motion design and video projects
- Use of Artificial Intelligence (AI) in creative practice
- Portfolio development

DRAWING & VISUAL REPRESENTATION

- Observational and analytical drawing
- Academic and technical drawing
- Sketching and quick visual ideation
- Illustration techniques
- Digital drawing applications

UX & INTERACTION DESIGN

- User experience principles
- Ergonomics and interface design
- Prototyping and user-centred design
- Adobe XD and Figma

PROJECT MANAGEMENT

- Creative briefs and project scope
- Time management tools and methodologies
- Production planning and scheduling
- Cost evaluation and professional pricing

BACHELOR IN INTERIOR ARCHITECTURE

OVERVIEW

The Bachelor in Interior Architecture at MJM Paris trains students to design functional, aesthetic and sustainable interior spaces for residential, commercial and public environments.

The programme combines creative thinking, technical expertise and professional design practice, aligned with current industry expectations and the evolving demands of the creative sector.

PROGRAMME STRUCTURE

Duration: 3 years full-time

Credits: 180 ECTS

Diploma: French qualification (RNCP Title)

ACADEMIC LEVELS:

Level 4: Design fundamentals and visual representation

Level 5: Technical development and digital tools

Level 6: Complex projects and professional practice

Practice-led learning delivered through studios, workshops and specialist facilities.

WHAT YOU WILL LEARN

STUDENTS DEVELOP EXPERTISE IN:

- Interior space design and planning
- Technical drawing and professional documentation
- CAD and 3D modelling (AutoCAD, SketchUp)
- Sustainable design principles and eco-materials
- Construction details and interior installations
- Professional presentation and portfolio development

ENTRY REQUIREMENTS

A-Level / French Baccalauréat (or equivalent qualification) in Applied Arts, Design or a related discipline.

Direct entry at an advanced level may be considered for applicants with relevant academic or professional experience, subject to interview and admissions review.

TEACHING & LEARNING APPROACH

The programme follows a **practice-led teaching model**, delivered by industry-experienced professionals.

Teaching is informed by **current professional practice and industry standards**, with assessment based on projects, creative outputs and a final professional portfolio.

CAREER OPPORTUNITIES

GRADUATES PURSUE CAREERS AS:

- Interior Designer
- Junior Interior Architect
- 3D Visualiser
- Design Studio Assistant
- Technical Design Coordinator

DRAWING & PERSPECTIVE

- Spatial sketching
- Analytical drawing
- Observational drawing
- Value, color, light
- Architectural drawing
- Perspective drawing
- Study sketching
- Outdoor sketching
- Digital design drawing
- Technical drawing
- Axonometric drawing
- Perspectives and elevations
- Natural light / artificial light

2D / 3D COMPUTER GRAPHICS

- Photoshop
- Illustrator
- InDesign
- AutoCAD
- SketchUP
- V-Ray

ART HISTORY

- History of architecture and design
- Visits to museums and art galleries, themed exhibitions
- Timeline of Major art movements

INTERIOR ARCHITECTURE / TECHNOLOGY

- Study and implementation of materials (plans, foundation, etc.)
- Perspective and technical drawing / Title block
- Scales
- Trend boards, color boards and material boards
- Electricity, soundproofing, and thermal insulation
- Safety standards

- Contractor consultation document
- Administrative regulations (roadways, etc.)
- Estimated and descriptive quotes
- Construction schedule tracking
- Detailed plans
- Plans / sections / elevations
- Technical vocabulary
- Workspace and ergonomic analysis
- Identification of custom multifunctional furniture to integrate

ECO-DESIGN IN INTERIOR ARCHITECTURE

- Energy renovation
- Thermal performance
- Low-consumption systems
- Optimized carbon footprint
- Sustainable materials
- Responsible sourcing
- Product life cycle
- Reduced environmental impact
- Eco-responsible design
- Principles of sustainable design
- Ecological innovation
- Occupant well-being

VOLUME MODEL

- Design, sculpture, volume
- Study of model materials and textures
- Representation of architectural space

WORKSHOP

- Trends
- Design
- Visual communication
- External contributors
- Activities & status
- Construction economics
- Oral communication
- Digital drawing
- Artificial Intelligence(AI)

INTERIOR ARCHITECTURE / PROJECT DESIGN

- Architectural design
- Site research and placement
- Existing space analysis
- Eco-responsible concept
- Project workshop
- Project analysis and development, program creation
- In-depth concept development
- Volume circulation
- Aesthetics and functionality
- Site survey
- Preliminary Design (APS)
- Detailed Design (APD)

BOOK

- Creation of a print & digital portfolio

ARCHITECTURAL SPACE REPRESENTATION

- Study models
- Concept models
- Presentation models
- Furniture design models
- 3D models / FabLab
- Scenography models

BACHELOR IN FASHION DESIGN

Overview

The Bachelor in Fashion Design at MJM Paris prepares students for careers in contemporary fashion design, combining creative design, technical expertise and industry-focused practice.

The programme combines creative thinking, technical expertise and professional design practice, aligned with current industry expectations and the evolving demands of the creative sector.

PROGRAMME STRUCTURE

Duration: 3 years full-time

Credits: 180 ECTS

Diploma: French qualification (RNCP Title)

ACADEMIC LEVELS:

Level 4: Fashion design fundamentals and garment construction

Level 5: Specialisation, digital fashion and industry practice

Level 6: Professionalisation and final collection

Practice-led learning delivered through design studios, ateliers, workshops and specialist fashion facilities.

WHAT YOU WILL LEARN

STUDENTS DEVELOP EXPERTISE IN:

- Fashion drawing and illustration
- Pattern making and garment construction
- Textile knowledge and materials
- Digital fashion tools (CLO3D, Adobe Illustrator)
- Fashion branding, communication and marketing
- Sustainable fashion and responsible design
- Professional portfolio and final collection development

ENTRY REQUIREMENTS

A-Level / French Baccalauréat (or equivalent qualification) in Applied Arts, Design or a related discipline.

Direct entry at an advanced level may be considered for applicants with relevant academic or professional experience, subject to interview and admissions review.

TEACHING & LEARNING APPROACH

Teaching is practice-led and delivered by **fashion professionals actively engaged** in the industry.

Learning is based on studio projects, technical workshops and applied fashion practice, with assessment through collections, projects and a final professional portfolio.

CAREER OPPORTUNITIES

GRADUATES PURSUE CAREERS AS:

- Graduates pursue careers as:
- Fashion Designer / Design Assistant
- Pattern Maker
- Sustainable Fashion Designer
- Fashion Creative
- Fashion Entrepreneur

STYLING

- Develop creative personality
- Develop personal collection
- Define style codes
- Decode trends
- Create moodboard
- Explore advanced techniques
- Collection planning
- Storytelling

CULTURE

- History of costume and fashion
- Fashion culture & trends
- Fashion lexicon
- Art history

FASHION DESIGN

- Technical drawing
- Sketching and design
- Illustration of silhouettes
- Garment details and drapes
- Coloring, faces, accessories
- Freehand drawing
- Computer-aided drawing

DIGITAL FASHION MARKETING PROMOTION

- Market analysis
- Brand strategy
- Brand positioning
- Digital marketing strategy
- Visual communication
- Event planning
- Competitor analysis

PATTERN MAKING

- Pattern making
- Draping and prototyping
- Assembly and sewing
- Garment technology
- Volume and materials
- Measuring and fitting
- Technical file

ASSEMBLY

- Machine and hand sewing techniques
- Production processes / confection
- Flat cutting techniques
- Finishing
- Creation of personal designs
- Quality control

ENTREPRENEURSHIP

- Brand establishment
- Definition of brand identity
- Mastery of the manufacturing process
- Market positioning
- Design and production
- Marketing and distribution

GRAPHICS

- Photoshop, Illustrator
- Creation of complex patterns (knit, cable, checks, stripes, dyed wovens)
- Creation of figurines and line drawings, coloring
- Technical sheets and flats for industrial production
- Mood board, concept book

TEXTILE TECHNOLOGY

- Fabrics & characteristics
- Textile collection development
- Textile innovations
- Textile creation
- Dyes and prints
- Print and pattern models
- Sustainability and ethics

FASHION SHOW

- From design (personal capsule collection) to production
- Complete preparation for a fashion show
- Model casting
- Coordination of logistical aspects
- Communication and promotion
- Photo shoot

WORKSHOPS

- 2D / 3D creation
- Business creation
- Embroidery
- Crowdfunding
- Ethical sustainable design
- Dyeing
- Accessories
- Press kit

CAREERS & EMPLOYABILITY

CAREER PROSPECTS

Graduates of MJM Paris pursue **careers aligned with their chosen Bachelor programme**, across Europe and international creative industries.

Each programme is designed to **prepare students for clearly identified professional roles** within the creative sector, supported by a French nationally recognised qualification, strengthening employability across multiple markets.

WORK-BASED LEARNING IS EMBEDDED ACROSS ALL THREE BACHELOR PROGRAMMES

Students develop professional readiness through:

- Industry-informed project briefs
- Practice-led modules aligned with real creative workflows
- Portfolio-based assessment

Opportunities for internships and professional experience

This approach reflects the **employability-focused academic model** of MJM Paris, ensuring students graduate with skills directly applicable to the workplace.

INDUSTRY LINKS

Based in Paris, one of the **world's leading creative capitals**, MJM Paris benefits from a strong professional environment connected to cultural institutions and professional networks.

ALUMNI DIRECTION & INTERNATIONAL OPPORTUNITIES

Graduates join an international alumni network, benefiting from academic and professional connections across France.

This cross-border ecosystem supports:

- Career development with a European Dimension
- Progression to further studies in France or Europe
- Long-term professional mobility within the creative industries

By combining a strong academic framework with a European-recognised French diploma, students graduate with a profile designed for international creative careers, offering flexibility, recognition and professional credibility.

the UK & France

Two qualifications, one
international profile

Stronger portfolio &
global employability

GRADUATION OUTCOME – DOUBLE DEGREE

ACADEMIC PARTNERSHIP WITH LONDON SOUTH BANK UNIVERSITY

MJM London delivers its undergraduate Bachelor programmes within the academic framework of London South Bank University (LSBU), a UK public university recognised for its professionally focused approach to higher education.

- 1st in London for Graduate Prospects
- 4th in the UK for Graduate Prospects (Complete University Guide)
- Top 100 in the world for UN Sustainable Development Goals performance
- Silver TEF Award for teaching excellence
- 15,000+ students and 3,000 international students from 153+ countries

This academic partnership brings together two complementary educational traditions. It combines LSBU's expertise in UK higher education standards, academic quality assurance and employability-driven teaching with the MJM Group's long-established French expertise in Art & Design Higher education and professional practice.

Programmes delivered at MJM London are aligned with UK higher education regulations and quality processes, with the Bachelor of Arts (BA Hons) awards validated within the LSBU academic framework and **is awarded to students who successfully complete their final year of study in London.**
